

MOTIVATION REMINDER

A Simple C++ Console App to Boost Your Day!

Overview

- Displays random motivational messages
- Built with: C++
- Spread positivity and encouragement

How It Works

- Messages are stored in a vector
- A random message is picked using `rand()`
- Beautiful console layout
- New message appears every time you run the program

Sample Output

M O T I V A T I O N

Dear Friend,

Message: You are never alone!

Stay strong and keep shining!

M O T I V A T I O N

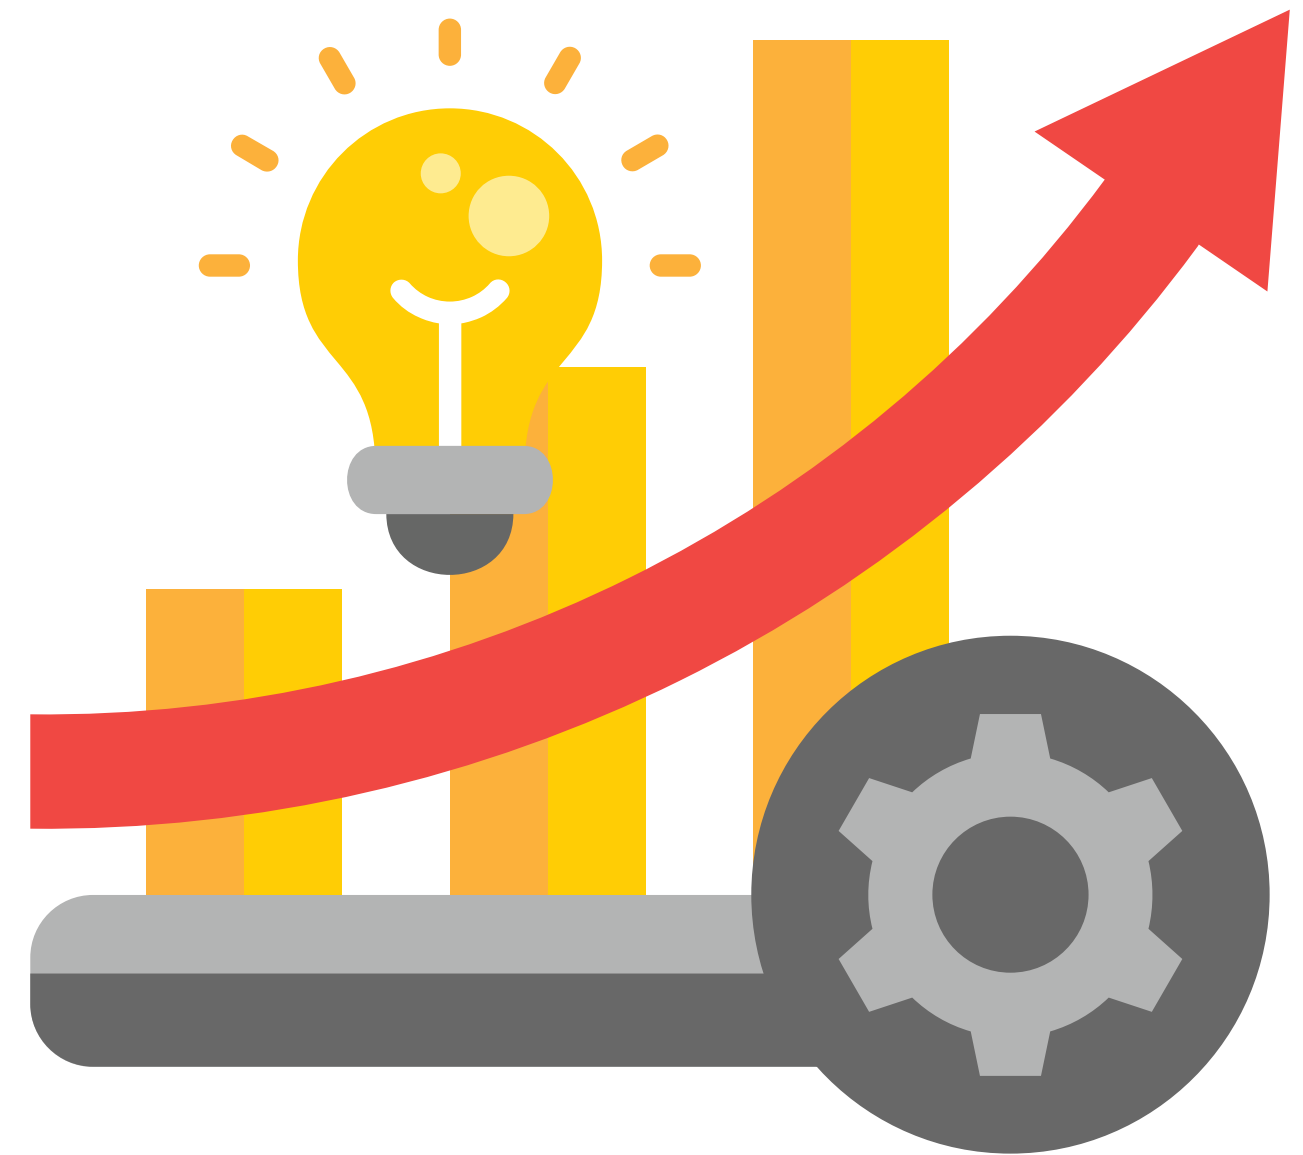

Dear Friend,

Message: True friends are always connected by heart.

Stay strong and keep shining!

Future Improvements

- Add more motivational messages
- Allow user-defined messages
- Develop a GUI version for more visual impact
